

## Assessment Specification

1. Is the floor a floor of concern.
2. If yes
  - a. Dimensioned floor plan sketch of the space(s).
  - b. Area of the floor in square feet.
  - c. Area of any adjacent spaces/rooms that are open to the rubber floor that may be contaminated.
  - d. Record sketch of the game line dimensions and colors.
  - e. Location of bleachers (moveable and fixed).
  - f. Any bleacher rollers that are rubbing the floor.
  - g. Pictures of the walls, floor, and space for a record in case the space has to be reconstructed.
  - h. Is there any areas where the floor may be “liquefying” under the surface.
3. A written report of the results of the assessment.
